# Roshan Bhandary

## Web Developer

In today's competitive job market, it's more than likely that all job candidates want to have not only good job but something creative. I'm here for you to give my training and skills while making a significant contribution to the success of your organization.

## ACHIEVEMENTS

### Best Employee of Month

While I handle my ideas and responsibility of work more creatively in **Ghiring Rural Municipality, Tanahun** I got Best Employee of Month as a project co-ordinator.

## EXPERIENCE

### Computer Operator

Department of National ID and Civil Registration / Kathmandu / August, 2020 - Present

So I'm an employee of **Department Of National ID and Civil Registration** under **Ministry of Home Affairs, Nepal** as a **computer operator** to enroll citizen's data for **National Identity programs**.

### Backend Developer

LVF Technologies Private Limited Technologies / Nawalpur / April, 2022 - Present

#### On Beginner level->

Here, I'm an employee as a part-time django developer. At present working on some projects as a member of a well-qualified team, I'm gathering some knowledge as well as some budget.

## TRAINING/CERTIFICATIONS

### Basic Computer Course Plus Office Package and Photoshop

BITS-Bitmap IT Solution Pvt. Ltd. / 2018

Before Joining to the Bachelor first I gained some skills through the training from **BITS** as I did not have any knowledge on computer and I was from non technical-field. However, I grabbed some knowledge from **BITS** on **graphics designing, digital-marketing, team-work ethics**, etc..

## PROJECTS

### Daily Post

This is one of the simple level project that I had done using django .  
**Technologies Used: HTML, CSS, Bootstrap, Python and Django.**

<https://github.com/Roshan-bh?tab=projects>

### Django CRUD

This is also a simple level project that I get through using django.

**Technologies Used: HTML, CSS, Bootstrap, Python and Django.**

<https://github.com/Roshan-bh?tab=projects>

Nepali

English

Hindi
